watsonx.ai Studio in Cloud Pak for Data and watsonx

Build and deploy machine learning models on either platform. Work with foundation models on watsonx as a Service.

Launch in

IBM Watsonx AI Studio is part of IBM Cloud Pak for Data and Watsonx, and serves as the AI capability of the data fabric architecture.

Welcome, Nagavallewari!

Take a tutorial
Step through implementing a Data fabric use case in a sample project.

Work with
Create a pro prepare data models.

Build and manage ML models with watsonx.ai Studio

watsonx.ai Studio is a service that you use to build, deploy, and manage AI models and to optimize decisions.

Work within a project to build models. Customize how you work by choosing from notebooks, graphical canvases, and no-code tools.

Get started

Sample project
Open a sample project with pre-built watsonx.ai Studio assets.

New project
Create a project and then add your own data to get started.

Deployments
Crop1_dep Jul 23, 2025 11:20 AM

Welcome, Nagavalleswari!

Take a tutorial
Step through implementing a Data fabric use case in a sample project.

Work with
Create a pro prepare data models.

Build and manage ML models with watsonx.ai Studio

watsonx.ai Studio is a service that you use to build, deploy, and manage AI models and to optimize decisions.

Work within a project to build models. Customize how you work by choosing from notebooks, graphical canvases, and no-code tools.

Get started with watsonx.ai Studio by provisioning a watsonx.ai Studio and watsonx.ai Runtime service instance.

Get started

Provision watsonx.ai Studio
Create an instance of watsonx.ai Studio from the service catalog.

Provision watsonx.ai Runtime
Create an instance of watsonx.ai Runtime from the service catalog.

Deployments

Crop1_dep Jul 23, 2025 11:20 AM

Quick start

Build customer profiles with IBM Match 360 with Watson

Catalog and govern data with watsonx.data Intelligence

Build and manage ML models with watsonx.ai Studio

Query data anywhere with Data Virtualization

What's new

Create connections for StreamSets flows

Pricing plan

Displayed prices do not include tax. Monthly prices shown are for country or region: United States

Plan	Features	Pricing
One-Rate	One-Rate Plan is a Pay-as-You-Go option with a single, flat monthly rate (\$/GB) that includes storage, API operations, retrieval, and outbound bandwidth—making it ideal for high-activity workloads with frequent access and data transfer, such as analytics, media, and web apps. The plan includes built-in allowances that scale with stored capacity and offers automatic volume discounts as usage grows.	
Lite(deprecated)	<p>Lite plan instance is free to use for Storage capacity up to 25 GB per month. Lite plan instance is used for trial, and can be easily upgraded to Standard plan for unlimited scalability and full functionality.</p> <p>None</p> <p>Lite plan services are deleted after 30 days of inactivity.</p>	Free
Standard	<p>Standard Plan is a flexible Pay-as-You-Go option with no minimum fee—ideal for workloads with large storage needs but low or infrequent access and outbound traffic. It includes a Free Tier with 5GB of Smart Tier storage for 12 months. Charges are based on actual usage, with separate billing for storage, outbound bandwidth, API operations, and data retrieval. Multiple storage classes help you optimize costs based on how often data is accessed.</p> <p>Free Tier allowance:</p>
